# PRODUCTS GUIDE

OUTSTANDING DESIGNS FROM ENTRY-LEVEL  
TO LUXURY BATHROOM

# HAVE YOU BEEN FEELING GOOD TODAY?

Why do people wish each other health and happiness? Perhaps because, despite prosperity, success and other promises, there is nothing more valuable. However, feeling good is essential for health and happiness.

**Andrej Trelkovsky**

Viewed from the customer's perspective, Duravit has divided the bathroom into four functional areas: washing, bathing, showering and toileting. Four areas for which Duravit offers well-conceived, harmonized products in a consistent design language. This new approach makes bathroom planning easier for professionals and customers alike. It increases safety and efficiency during installation and thus offers a perfectly matching, extremely functional and visually consistent outcome with maximum individualization

# **WELCOME TO THE BATHROOM. AND TO THE HEART OF THINGS.**

Not so very long ago, the bathroom was a place that you designed in a sober manner and visited as briefly as possible. It was frequently referred to simply as the “wet room” and as such, it lived up to its name. Today, things are very different. Today, the bathroom is the place where we can be at one with ourselves, where we relish a moment away from the daily hustle and bustle. The bathroom is still a place of cleansing, but one that refreshes body and soul alike, quite as a matter of course. People who want to give themselves a treat choose a bathroom that is a treat in itself. And those who want to treat themselves to something really special, choose one from Duravit. We manufacture high-quality products for the bathroom, created by the best designers and fitted with technical solutions that are both, smart and convenient. We generate a sustained sense of wellbeing in the bathroom with materials and designs that are made to last.

# ESSENTIALS FOR LIVING BATHROOMS

# CERAMICS

# PURAVIDA

Design by Phoenix Design

The more complex and advanced our world becomes, the more we desire an escape to a new more “emotional” way of seeing things. Spanish for “pure life”, the PuraVida design is the physical expression of this claim: the brainchild of Phoenix Design, the design of this extraordinary complete range makes minimalism approachable by giving it a new feminine touch. PuraVida’s graceful appearance, inviting surfaces and subtle luxury make the collection ideal for people who are not interested in prestige but in contemporary forms, enjoyment and joie de vivre.

# VERO

Design by Duravit

Cinema screen or computer monitor, fridge or milk carton, a room, a table, this brochure: our world is inconceivable without the rectangle. Perhaps this is why we are so attracted to Vero: the forms of this ceramic range are entirely restricted to the rectangle. It's a restriction that gives rise to new possibilities: this is because Vero is one of the most versatile ceramic ranges of all time. With minimalist design at its core and the strong support of Duravit's ceramic tradition and expertise, Vero is impressive in terms of its form, function and quality.

# CARO

Design by Duravit

When purity becomes an experience: reduced forms and a distinguishing sweeping movement make the Caro ceramic range ideal for elegant bathrooms.

# STARK 3

Design by Philippe Starck

Even more top-quality Starck at a great value: there's no doubt that, with the Starck 3 range of ceramics, Duravit has revolutionized the sanitary world. Starck 3 brings design to a segment where it was once an untouched concept with a vast array of products that meet all needs and tastes. And – the range provides better value for money than ever before. With more than 50 models and 64 variants, Starck 3 is one of Duravit's most extensive bathroom ranges. So, it only seems right that a range that offers so much requires its own brochure to illustrate its numerous applications, examples, and references.

# DARLING NEW

Design by sieger design

The harmonious form, filigree edges and a practical design language combine to produce a timelessly chic bathroom with limitless possibilities. With its large selection of attractive wood décors and plain surfaces, individual washbasin solutions and friendly prices, Darling New is the perfect answer for all bathrooms.

# BATHROOM\_

# FOSTER.

Design by Norman Foster

When a top architect and designer designs a bathroom range, it's normal to expect something really special – like Bathroom\_Foster.

# DURASTYLE

Design by Matto Thun

However, individuality does not mean making an impression with all means. Simply an ambience which reflects itself, gives your personality air to breathe and space to do your own thing. Such as DuraStyle

# DELLARCO

Design by sieger design

It is often the simple ideas that succeed. Dellarco from sieger design is a case in point. Ceramics a complete programme based on a single design element - the arch.

# D-CODE

Design by sieger design

Of course, good design isn't everything, but all the same a well designed object makes life more pleasant. All the more so if it is affordable. D-Code from Duravit is a new kind of bathroom range – complete from washbasin to towel rail, consistently designed throughout and excellent value for money. Its appearance is restrained, featuring rectangular forms with rounded edges – the classic washbasin shape, in fact, that does not impose itself but rather blends with its surroundings. This is what makes D-Code so timelessly modern – a hallmark of good design. With alternatives and solutions for all imaginable bathroom situations, D-Code is a bathroom range that many people have been waiting for – including you perhaps.

# HAPPY D.

# 1930 SERIES

Design by Duravit

# ORCHIDEE

Design by Duravit

Orchidee it takes perfect craftsmanship to reproduce these delicate petal shapes in sanitary ceramics. Since this is a craft that has been cultivated at Duravit for generations, those who love romantic and exotic design in the bathroom will appreciate and delight in the Orchidee range.

# ECHO
